PARTNERING
INDIA’S DREAM
TO BE NO.1
At Mitsubishi Electric, we are committed to deliver a better tomorrow for India. And we promise to do so faster. From trains to elevators, factory automation solutions to air conditioning systems, we are aiming high to help the next generation build a nation on the strong foundation of cutting-edge technologies. Technologies that will impact millions of lives in a positive way by enhancing their quality of life. Technologies that will create a world of possibilities for everyone to dream big. And, together, take India ahead.
QUALITY THAT INDIA DEPENDS ON TO DREAM BIG.

Efficient and reliable air conditioning systems for India to lead with comfort.

AIR CONDITIONING SYSTEMS

Mitsubishi Electric is a global leader in air conditioning systems for residential, commercial and industrial use. Challenged to create innovative air conditioning systems, our engineers develop amazingly sophisticated yet durable units with Japanese state-of-the-art technology that can withstand extreme conditions. Each product is an amazing feat in its own, delivering energy-efficient performance with minimum impact on the environment.
PREPARING INDIA FOR ADVANCED AUTOMOTIVE SOLUTIONS.

Next-generation automotive equipment to keep India ahead in the green automobile revolution.

AUTOMOTIVE EQUIPMENT

Mitsubishi Electric’s automotive equipment technologies are at the core of many general, hybrid and next-generation clean-energy vehicles made by the world’s major automobile manufacturers. In addition to supplying CPUs (the brain center of automotive electronics), alternators, starters, electric power-steering systems and car multimedia systems, Mitsubishi Electric delivers a wide variety of cutting-edge and high-quality automobile components for greater amenity, safety and ecology.
SPEED AND EFFICIENCY TO BUILD A BETTER INDIA.

Elevators and escalators with precision technology, quality and efficiency to support modern urbanization.

ELEVATORS AND ESCALATORS

Mitsubishi Electric elevators and escalators are contributing to the development and expansion of high rises around the world, and providing architects and developers with new options for innovative building designs. Mitsubishi Electric elevators and escalators are continuously developing unique state-of-the-art technologies that incorporate innovative engineering and energy-efficient technologies to ensure operation efficiency, including the utmost reliability, durability and safety.
MOVING INDIA TO HIGH PRODUCTIVITY AND COST EFFICIENCY.

Smart and cost-effective factory automation solutions that are taking businesses to the next level.

FACTORY AUTOMATION

Mitsubishi Electric India’s Factory Automation and Industrial Division (FAID) brings higher productivity to the factory-floor by offering a vast range of automation technologies, including e-F@ctory, that enable Digitalized manufacturing, Inverters (Drive Products), Modular Programmable Controllers (Modular PLCs) and Micro Controllers (Micro PLCs), Motion Controllers & Servo Motion Systems (AC Servos), Human Machine Interfaces - HMIs (including locally developed and manufactured Graphic Operation Controllers - GOCs), SCADA, Computerized Numerical Controllers (CNCs), Robots and Low Voltage Switchgear (LVS) products.
Enhancing the control and efficiency of the electrical systems for digital India through semiconductors & devices.

**SEMICONDUCTORS & DEVICES**

Mitsubishi Electric provides semiconductors & devices including power modules and high power devices that handle the highly efficient control of power, optical devices that deliver the performance required in fiber-optic communication devices, high frequency devices that cover everything from radios to satellite communications, and the line of TFT-LCD modules that improve interfaces for industrial use.
SMART TRANSPORTATION SYSTEM FOR A SMART CITY.

Matching pace with solutions unique to India and the need for efficient mass urban transportation.

TRANSPORTATION SYSTEMS

Mitsubishi Electric is contributing to reliable, safe, comfortable railway transportation through state-of-the-art products and systems along with a great maintenance and service network. Focusing on eco-conscious products and manufacturing, the evolution of our energy-saving electronics technologies and system integration for components and systems utilized for all types of rolling stock is never-ending. Today, Mitsubishi Electric railway products and services are being introduced to railway systems in numerous countries around the world.
SUSTAINABLE TECHNOLOGIES FOR A GREENER FUTURE.

Keeping eco-consciousness and a greener planet at the core of everything we do.

ENVIRONMENTAL VISION 2050

Mitsubishi Electric is aiming to be a global, leading green company that contributes to the creation of a more affluent society. We will continue to put Eco Changes into practice as a way of changing our own actions and changing society to be more eco-conscious.

ENVIRONMENTAL STATEMENT

‘Eco Changes’ is the Mitsubishi Electric Group's environmental statement, and expresses our stance on environmental management. Through a wide range of businesses for homes, offices, factories, infrastructure, and even outer space, we are helping to contribute to the realization of a sustainable society.

Environmental Sustainability Vision 2050

To solve various factors that lead to environmental issues, the Mitsubishi Electric Group shall unite the wishes of each and every person, and strive to create new value for a sustainable future.
